

HIGH SCALABLE SWITCHING SOLUTION

C3NTRO's Switching Platform is a cost effective solution created specifically to relieve Tier 1 Carriers and PTT's from the extreme stress associated with managing international wholesale and retail traffic. Designed specially for high volume networks.

Our state of the art network and infrastructure combined with 22 years of experience in the telecom industry allows us to manage substantial volumes of traffic without compromising your quality standards while continuing to provide exclusive services which include fraud detection, CLI, delivery testing and advanced reporting.

CAPEX Savings

C3NTRO IS CURRENTLY OFFERING THE FOLLOWING BUSINESS MODEL WITHIN ITS SWITCHING PRODUCT TAILORED TO YOUR SPECIFIC NEEDS

Pay a convenient monthly fee based on volume, channel count or capacity and only the reporting services you require.

For a small percentage fee, we set a threshold based on your current traffic profile and operating costs **so you're always under budget.**

Considering your traffics profile, volume, quality and budget, we set a fix cost and any saving below it will be placed on a revenue share structure to give your company **an extra monthly income.**

ARE YOU A TIER 1 OR PTT?

ASK ABOUT OUR VALUE ADDED SERVICES!

Our product is directed exclusively at Tier 1 Carriers and PTT's with retail traffic that require a cost effective engine to reduce operational and traffic costs and be able to focus on their retail market.
